Activity Name: Step Club

Faculty: Mr. Wright

Faculty Email Address: isaiah.wright@dodea.edu

Description of Activity: TStepping is a dance that uses the body as an instrument. It combines footsteps, claps, and spoken words to produce complex rhythms. Dancers wear hard-soled shoes that create loud sounds against the floor. Dance and music are an important part of everyday life. In cultures all over the world, people of all generations dance to celebrate accomplishments, communicate messages, and show community pride.

Teaching dance and music ensures that cultural history lives on forever. Many cultures believe that dance is for everyone. Stepping is historically associated with college groups, but today the art form is universal and highly appealing to young people. Stepping has become a mainstream art form and has been highlighted in motion pictures such as Stomp The Yard, School Daze, and Drumline. Stepping can also be found in schools, churches, and community-based organizations across the United States.

Dances are created by:

- repeating a movement
- slowing down or speeding up a movement
- changing the movement, but keeping the same beat
- changing the direction of the movement (left, right, front, back, diagonal)
- slowing down or speeding up movements
- These five elements are involved in creating steps.
